The 10-foot long i-Log adds an irresistible balance feature to any aquapark so that participants can walk the plank, or try to make it out and back! The i-Log attaches to the log specific rings by our easy to use Interloc system

### i-log Technical Features

**Duratex™**  
**Commercial grade fabric reinforced PVC material.**  
Ideally suited for watersports, Duratex material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide® Platinum™ item uses Duratex material for maximum strength and durability.

The i-log incorporates 1000d fabric fused with layers of 28 oz PVC.

**RF Weld™**  
**Radio frequency welded seams for high quality and outstanding durability.**  
'RF' or Radio Frequency Welding is the process used to fuse Duratex material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

**UV Block™**  
**Materials specially treated for high resistance to the sun's damaging rays.**  
Each Aquaglide Platinum item is treated with UV Block, the highest grade 3-year UV coating available. While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block incorporated into the material right from the start. UV Block, for years of trouble-free use.

# 3

**3 Year**  
**Limited Warranty against any and all manufacturing defects.**

Each Aquaglide Platinum item offers a warranty covering any and all manufacturing defects for an extended period of time. The i-log includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

**Interloc™**  
**Heavy duty stainless fittings and convenient Interloc straps for modular use.**

Aquaglide Platinum items connect to one another using the Interloc system. Soft webbing offers some flexibility, while remaining tough enough for years of service. Only Interloc blends the convenience of a cinch with the security of a locking connection.

# EN

**EN Compliant**  
**This product complies with all DIN EN 15649 product safety standards.**

DIN EN 15649 is a rigorous product safety standard designed specifically for floating leisure items.

### i-log Functional Features

**Balance**  
**Incorporates a balance feature.**  
Build balance skills, spar with a friend, or create a challenge course. This balance feature adds endless excitement to your Platinum aquapark.
